Sir:

Enclosed with this filing are:

- 1) Marked up copy of the substitute specification;
- 2) English translation of the international application; and
- 3) Preliminary Amendment.

Applicant would like to bring to the Office's attention that at the time of filing the application, applicant supplied a clean copy of the substitute specification and erroneously identified it on the 371 transmittal as the English translation. An accurate literal translation of the international application is enclosed. While the document previously submitted can be used as a clean substitute specification, please disregard the claims in that document in favor of the enclosed preliminary amendment, which properly amends the claims. The substitute specification and the marked up copy of the substitute specification contain no new matter.

Respectfully submitted,
